			NJ04	0.17	0.00
			NJ01	0.17	0.01

\*\* Top districts as measured by announced manufacturing investment and operating clean power capacity

## American Energy Stories from New Jersey

A new jobs program in New Jersey was launched to address the state's energy affordability crisis through solar construction. NJ generates 13 GW but consumes 19 GW, importing a fifth of its power. The coalition proposes a statewide solar and battery storage program deployable within 24 months.
