American Energy Stories from Virginia

The Coastal Virginia Offshore Wind (CVOW) project will be only the second offshore wind project in the nation and the first owned by an electric utility company. When fully operational in 2026, CVOW will produce 2,600 megawatts of electricity, enough to power as many as 660,00 Virginia homes, and support approximately 1,100 direct and indirect jobs annually.

Volvo Truck's New River Valley (NRV) facility employs approximately 3,600 people, making it the largest manufacturing employer in Southwestern Virginia. At 2.3 million square feet, the NRV facility is Volvo Truck's largest factory in the world. Since 2021, the NRV facility has been producing the VNR Electric, among other models, an integral part of the global automaker's fleet electrification strategy.
